## FAA ISSUES UPDATED GUIDANCE ON THUNDERSTORMS

Last month, FAA issued [AC 00-24C](#), Thunderstorms, which describes the hazards of thunderstorms to aviation and offers guidance to help prevent accidents caused by thunderstorms. This AC cancels AC 00-24B, Thunderstorms (January 20, 1983).

The current edition of AC 00-6 provides more details regarding the atmospheric conditions leading to the formation of thunderstorms, and includes the following information:

- Thunderstorm types
- Thunderstorm terminology
- Hazards to aviation
- Ground-based weather radar
- Airborne weather radar
- Dos and Don'ts of thunderstorm avoidance

If you have any questions about the updated guidance, please contact our office.
